

MANILLA
FINANCE

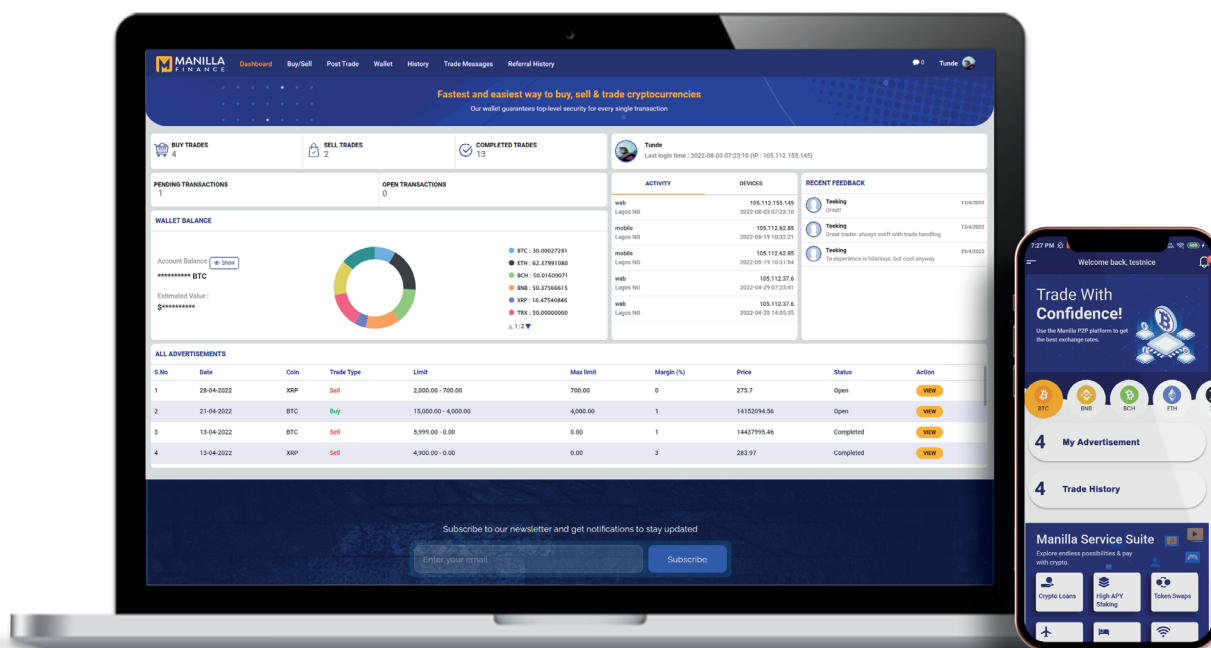

Your Financial Suite, Fueled By Crypto!

MANILLA ECOSYSTEM BRIEF & TOKENOMICS

ABOUT MANILLA FINANCE

Manilla Finance is an innovative and highly scalable CEDEFI project bridging traditional fintech solutions from Web2 to Web3 and enabling utility bills settlement in cryptocurrency. The platform also sports an intuitive P2P exchange.

Manilla has revolutionized the status quo and thus, offers a full service packed P2P Exchange where you can exchange your crypto assets for either fiat, electronic currency or other forms of barter instruments. The Manilla Finance platform also offers its users the opportunity to pay utility bills, buy airtime & data, trade gift cards, take crypto loans and stake for a high APY etc. As upgrade continues on the platform, users across the many countries will be able to book hotels, flights and buy event tickets on the app. We are targeting expansion into over 100 countries across 4 continents serving millions of users. Development & Plans are in full gear to launch the Manilla application in 41 African countries including Canada, United Kingdom & Australia. The Manilla platform is very robust, secure, seamless and very fast in fulfilling transactions.

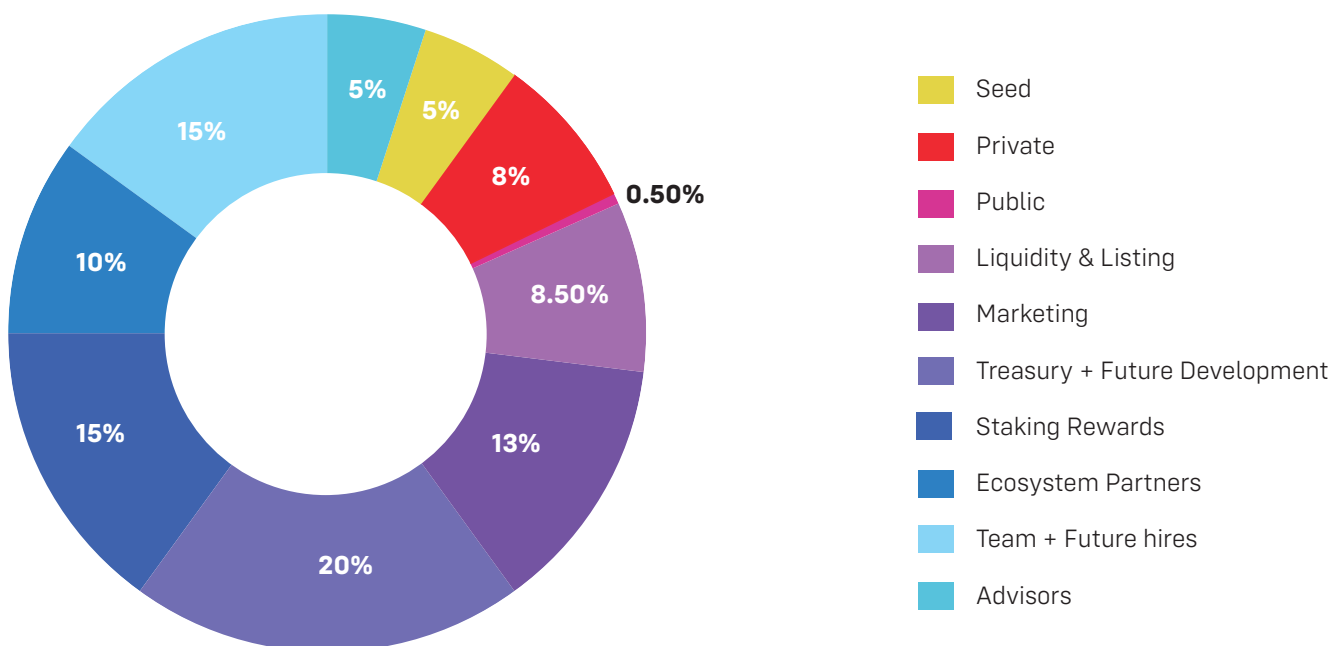

MANILLA SERVICE SUITE

The Manilla Service Suite is a financial solution housed in the Manilla Finance with the goal of easing day-to-day financial transactions for the average person. Disrupting classical approaches to financial transactions, Manilla Service Suite will allow for these services to be paid for with cryptocurrencies. Whilst saving up in stable cryptos, an individual is able to hedge against inflation and also earn longterm staking rewards by being eligible for Manilla's profit sharing program. It has never been this different!

Services within the Manilla Service Suite includes;

Spot Lending, High APR Staking, Utility Bill Purchase, Ticketing & Bookings, Airtime & Mobile Data Subscription and more to be incorporated as deemed necessary or as demand popularizes.

TOKEN UTILITY

The MNLA is the base utility token that powers the Manilla Ecosystem. You can use MNLA to pay for services that are available in the Manilla Service Suite. It will also be used for payment of charges, staking for high rewards as well as the governance token of the Manilla Ecosystem. 30% of profits generated from the Manilla Finance will be distributed to the holders of MNLA at the end of each fiscal year (T&C applies).
